

How to download a blank form from the CRA Website.

RIGHT-click on a form link in the list of forms. Depending on your browser environment one of the following dialog boxes will appear. Select the indicated action for the browser you are using.

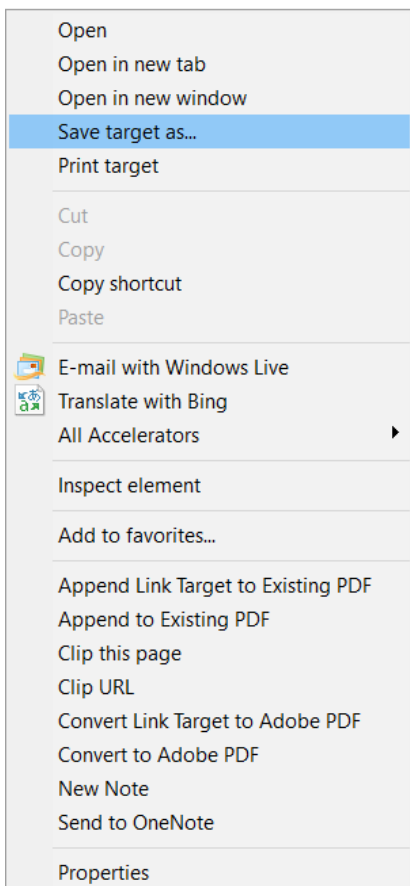

CHROME

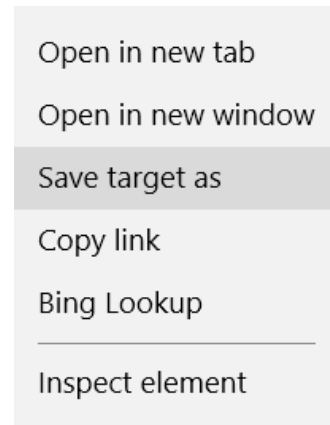

FIREFOX

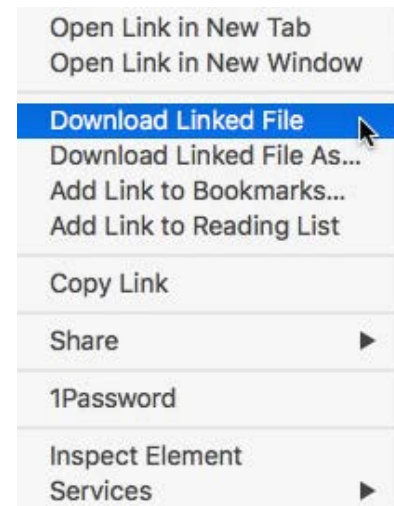

EXPLORER

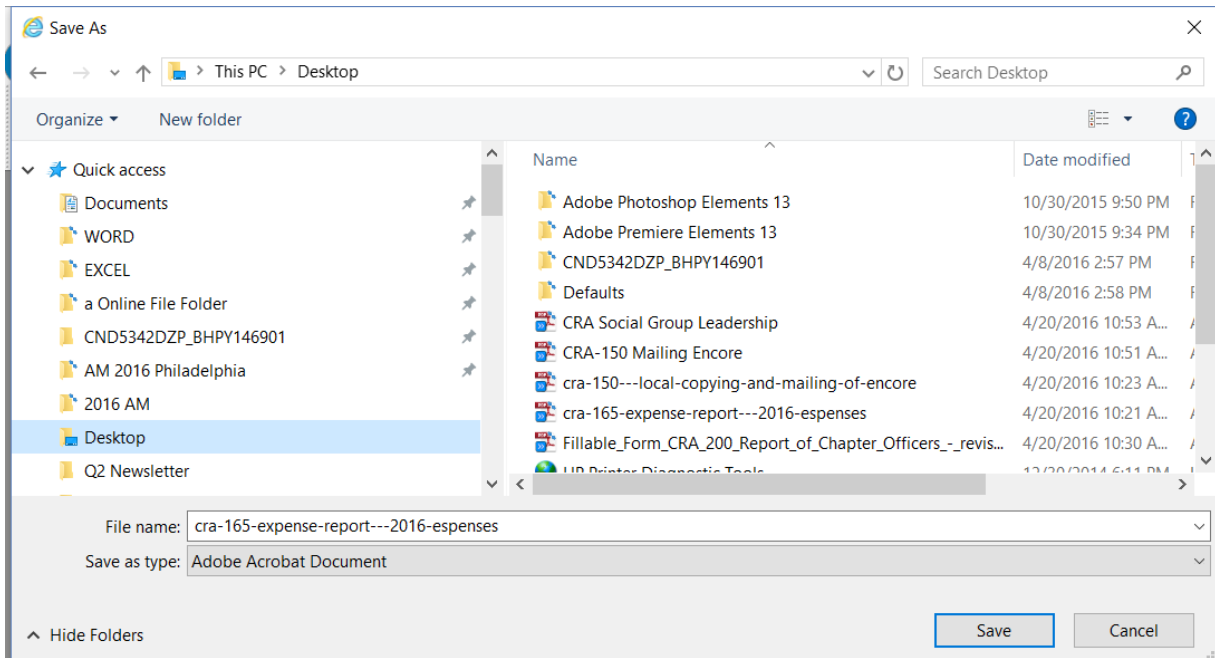

EDGE

SAFARI

In Windows, you should see a “Save As” dialog like the following. Choose the location where you want to save the blank form and click on “Save”.

Note where you saved this form because you will need to reference it when you open it in Adobe Reader. We recommend you use the Desktop as a place to temporarily store this blank form. You may then open it in Adobe Reader, fill it out, and save it in a permanent location.

In the Mac environment, you will download the blank form automatically into your Downloads folder. You can process it from there, saving the completed form to a permanent location.

Please delete the blank form from the Desktop or your Downloads folder to ensure that you always submit the current form.
